

How to Utilize F4CP's New Podcast with Your Patients

What Is A Podcast?

To put it simply, a podcast is like talk radio, but you can subscribe and listen to it on your smartphone or computer. A podcast is a series of audio episodes that all relate to the same topic or theme. For example, wellness, cycling, cooking, etc. Where podcasts differ from talk radio is that you can simply pause the episode and come back to it when you are ready to resume. Many are replacing what we know as traditional talk radio with podcasts due to their easy to use nature while commuting or cooking dinner for example.

About the F4CP's New Podcast

The F4CP is proud to launch its new podcast – Adjusted Reality. Adjusted Reality is a podcast available on many platforms. On it, there are interviews with well-known athletes, celebrities, actors, chiropractors, and other podcasters who are passionate about chiropractic and general wellness. This podcast was created with the aim to be accessible but captivating to others in chiropractic and the general public alike.

How Can I Utilize This Podcast With My Patients?

By including this podcast in a newsletter with patients and recommending it to a patient, you are keeping your practice on their minds during parts of the day they otherwise wouldn't think about making an appointment with their doctor of chiropractic. If you have a podcast to utilize such as Adjusted Reality, patients will not only think of you as a source for information about health and wellness, but a source for entertainment that gets them on the path to integrate healthy living into their daily lives. Podcast previews can also be posted onto your social media to boost traction onto your web presence.
